Vitamin Y: VMware's "transition year"

June 27, 2016 by Mary Allen

Putting a stopper on speculation over spin off, VMware's CEO explained how the firm will build on a long history of working with Dell. With acquisition, the new VMware multi-cloud approach will set the tone for a more successful collaboration.

VMware journey: improving the ecosystem

Pat Gelsinger, CEO, VMware

"When people talk about VMware in the context of these enormous tectonic shifts that are occurring in the industry, I believe by the end of this year we will have created enough evidence of our new product, the growth of our new products, and the growth of our strategy to allow everybody to say, 'they are clearly part of our strategic future. There's no doubt that VMware can take its customers across this mobile-cloud transition," noted VMware CEO Pat Gelsinger. Read more

Conquering the complexities of hybrid environment configuration management

July 5, 2016 by Michael O'Neil

Despite the advantages of deploying hybrid cloud environments, managing public and private environments can be challenging for enterprises.

Chris Kent, CenturyLink

CenturyLink empowers the hybrid path

Runner is a new service from CenturyLink that helps companies deploy and manage hybrid infrastructure. With it, organizations can leverage the cloud with a "multi-cloud automation and orchestration engine… that enables users to quickly manage, provision and deploy infrastructure across their environments" explained Chris Kent, senior lead product manager at CenturyLink Cloud. Interac tokens transit to IBM cloud

July 4, 2016 by Denise Deveau

Avinash Chidambaram, VP product and platform development, Interac Association and Acxsys Corporation

Interact Token Service Provider is a proprietary technology that enables secure digital payments.

Interac and IBM's virtual business machines

Interac chose to deploy on the IBM Cloud based on IBM ability to understand and address industry-specific needs. "We have very specific, defined requirements in terms of how we protect and store data, so we have to be sure we trust that the infrastructure has the operations and support mechanisms to secure it," explained Avinash Chidambaram, VP product and platform development of Interac Association and Acxsys Corporation. Meetup debates the IoT ecosystem in Canada

June 28, 2016 by Michael O'Neil

"Building the IoT Ecosystem in Canada" was the topic of the most recent CIA (Cloud, IoT, Analytics) session hosted by InsightaaS and the TCBC. The well attended networking event featured the perspectives of top minds on an evolving IoT ecosystem. Panelists and presenters included Tracey Hutchison of Cisco, Victor Garcia of the Schulich School of Business, Michael Cardy of Red Hat, Ted Longley of ORION and Savio Lee of Ingram Micro.

Accelerating the journey to IoT adoption

To develop an approach that will help enterprises architectures take advantage of new IoT initiatives and tools, panelists were asked to complete the phrase, "In my experience, what's most important to building/sustaining/growing a viable IoT solution/ecosystem is…". Click here to read some of their responses

Tracey Hutchison
Cisco

Victor Garcia

About InsightaaS

The Insighter is a bi-weekly e-newsletter that, like its parent website InsightaaS, it is dedicated to exploring "the 'why' in enterprise technology."

Our enews offers unique and depth perspective on Analytics, Cloud, Data Centre, IT Management (including security), The Internet of Things, and Vitamin Y, a concise view of industry trends and events. If you are interested in staying current with our research, featured content and editorial coverage in these areas, click on any of the articles in this e-newsletter. If you are interested in a steady stream of thought leadership, click on the link below and we'll subscribe you!

If you'd rather not hear from us again, just use this link: Unsubscribe from *The Insighter* by clicking here.

We look forward to sharing Insights with you in the months to come!
